

Folding The Blanket

Step 1: lay the blanket on the floor with the body parts on the bottom.

Step 2: fold each side up the center and tie up the buttons by sliding them through the loops on the other side of the blanket.

Step 3: fold the end of the blanket (the edge will touch the place where the back legs are attached)

Step 4: fold the other end of the blanket (the part containing the head) over the rest of the blanket.

Now you can hang it on the cot or chair or fold it in half and place it on a shelf as decoration.
