

Folding The Blanket

Step 1: lay the blanket on the floor with the body parts on the bottom.

Step 2: fold each side up to the center and tie up the buttons by sliding them through the loops on the blanket.

Step 3: fold the end of the blanket (the edge will touch the place where the back legs are attached)

Step 4: fold the other end of the blanket (the part containing the head) over the rest of the blanket.

Now you can hang it on the cot or chair or place it on a shelf as decoration.
